There will be a public meeting of the Young Men's Christian Association at the second Presbyterian Church, this evening, at 8 o'clock, There will be addresses by members of the Association, and music by the Nashville Musical Union. The public are respectfully invited to attend.

The work of laying down water pipes, along Cherry Street, has been completed as far as the City Cemetery. We congratulate the citizens of South Nashville, on this timely supply of their necessities and convenience. The Superintendent of the Water works, Mr. SEABURY, and the Superintendent of the pipe laying, Esq. WILKERSON, deserve the thanks of the City Authorities for their energy and industry.

### Miss Marion MaCarthy.

This lady commenced an engagement at the Nashville Theatre 1 st night. We obtain the following facts of her career from a St. Louis paper: She is the daughter of MICHAEL BARRY MACARTHY, a celebrated comedian, who played successfully at the principal British Theatres, and came to this country in 1849. Marion was born in England, and, while her parents were absent in America, was placed under the guardianship of Rev. Frances Cunningham, of England. In 1853, at the age of fifteen years, she came to America. She appeared first as a vocalist, in her father's "Irish Entertainments," and appeared in that character for the first time in this country, at Newark, N. J., and then at G 2 5 Worcester, Mass. She made her first appearance as an actress, at Chambers Street Theatre, then under the management of the celebrated Burron. At Worcester, she was engaged by the present able stage-manager of the Nashville Theatre. Last winter she played at the St. Charles and Gaisty Theatres, New Orleans, where it is said she became a favorite. "Since then," to use the language of the paper to which we have referred, "she has, in conjunction with her brother, the clever Irish comedian and vocalist, played "star" engagements in almost all the principal cities of the north-west, and in every one with unquestioned benefit to themselves and the Theatre where they appeared. Their engagement at the St. Louis Theatre has been in every particular a triumph. As vocalists and actors, they have elicited the admiration of the frequenters of the "St. Louis," and Miss MARION MA-CARTHY, by her peculiar naivete and vivacity as an actress, and her excellence as a cantatrice, has obtained a popularity which will long remain after her departure to the future scenes of her success."

8 Sona Water.-Charles Miller, on Cherry street, has a magnificent Soda Fountain in full blast, and, as we profess to be a judge of this article, we have no hesitation in pronouncing his ne plus ultra.

TRISH POTATOES .- Messrs. Smith, Love & Co., will receive by steamer Princess, an excellent lov of Irish Potatoes, raised in Michigan. The scarcity of potatoes in our market at present, will create a demand, and those wishing to buy should call early, as the supply is limited.

BUILDING LOTS FOR SALE .- The public should not forget that this is the day on which Jas. W. Dabbs sells those choice building lots 31 miles from the city on the Murfeesboro' turn-pike .-They lie in one of the most pleasant neighborhoods in Davidson county, and are very attractive sites for country residences. They will be sold on

The case of M. W. Bridges es. G. W. Grader and B. F. Cowan, involving a question of fraud in the sale of a Patent right for a Mill, was decided, by the Chancery Court, now sitting at Nashville, on Saturday last, in favor of the defendants.

NASHVILLE RACES .- The Spring meeting on the Nashville Course, commences this day, with a match-race for five thousand dollars. Good sport is expected during the entire week.

A Good Hotel .- A good hotel is a blessing anywhere. It is a treasure, -a rich jewel in the cap of any town or city. Wherever one is found it cannot be too often, or two warmly, commended. Sometimes in our wanderings we have come across one when least expected, not in a greatcity, but in a quiet pleasant country town; and we have always remembered them as an oasis in a desert. Our neighbor town of Franklin has one of these rare institutions, the Williamson House, kept by Mr. N. C. David. No one who stops at it will go away unsatisfied or complaining. The proprietor understands his business too well, even to permit such an occurrence. He prides himself upon keeping a good house, and he lets nothing happen to depreciate its reputation.

Give his house a trial, reader, if you have occasion, and see if we err.

# The Eolian Harp.

There is a stream of music slumbering in all nature: it awakens when called forth by an adequate motion of bodies. The whistling winds in the tops of the trees-the waves of the ocean tosting against the rocks of the deep-the meander ing stream, murmuring o'er its pebbly bed-the falling leaves, the evening breeze, stealing through the foliage of the bower-the humming of the bee-in fine, every motion in nature gives birth to sounds belonging to this solemn strain. The mystery of which we speak, for, indeed, a mystery it is, is strikingly manifest in the chords Raking Reaper and Mower combined; Ketchum's Mower; of the molian or wind harp. This natural instrument was invented or rather discovered by a monk, Athanasius Vireber, about the middle of the 18th century. It consists in a number of strings, from four to eight, tuned in perfect unison. When exposed to the streaming air the strings sound first only their common tone, that is in unison. With the increasing stream of air the tone swells, and, like the opening resolud reveals its enshrined beauty to the eye, conveys to the ear a variety of tones, which, in purity, tenderness and elasticity, far surpass the production of any artistic instrument; yes, even the best human voice. From th . softest piano, scarcely perceptable to the ear, to the loudest forte, an in witable swell touches us with sweet melancholy and carries our thoughts far beyond this material world. Then, for a moment, at least, we are inclined to believe in the legend of "The Harmony of Spheres."

DIRECTION OF LETTERS FOR LONDON,-The LOD don Times says: "Persons in America directing letters for London should be careful to put the initial letters of the metropolitan district intended above the word 'London,' and not under it. A leading house in New York having transmitted bills for £70,000 in a letter directed 'London, W. C., was carried to Lendon, Western Canada.

REMEMBER that on Thursday the 28th inst., I will bring off that GREAT SALE of lots in Engr. FIELD, at 10 o'clock A. M. A. V. S. LINDSLEY.

WM, SIMMONS. FOR PADUCAB. - This day the beautiful steamer Cuba will leave at 10 o'clock, A. M., for Paducah, connecting with the Louisville and St. Lous packets. She is in charge of Capt. Mills, long a favorite on the Cumberland, with our clever friend Sloan in the office. She is a fast and nest boat for the trade, and her register betokens appreciation of her

qualities on the part of the traveling public.

FOR CINCINNATI.-The fine passenger steamer SWALLOW, with the attentive ALEX. FRAZIER, in mand, will leave for the above and all intermediate ports this day at 10 o'clock. Capt. F. has long been identified with the Cumberland river trade; in fact, we regard him as a "fixture in our Porkopolis trade," and trust he may receive blooms" in great abundance for his energy, per severance and promptness in the discharge of his

Crooker's Millinery Establishment. We doubt whether the fair dames and belies of

Nashville have ever experienced so much difficulty in the selection of a bonnet, as this season, at this establishment. The cause is not to be found in the ncreased fastidiousness or captiousness of their tastes, nor in the paucity of the stock or inelegance of the styles. No; we must look for it in some other quarter. Their fancies, to tell the truth, have been bewildered by the great variety and beauty of the assortment to choose from. They experience such sensations while beholding it, as one feels in a rich conservatory surrounded by the rarest exotics, andlaved in their delicious perfumes. They have such emotions as led the poet to wish that the lips of all womankind, especially the beauties, were condensed into one pretty pouting pair that he might, in kissing them, kiss the whole race. Where there is so much elegance, so great a variety, a choice must be difficult. The thing's natural; and the dear creatures are not to blame. But not of bonnets alone does Crooker's congress consist. Nearly all descriptions of millinery goods are represented there-from the lightest and most etherial to the heavier fabrics which art produces to adorn the oveliest of nature's handiworks.

### E. & J. HOLMES' MPROVED SEAMLESS WHALEBONE SKIRTS.

WE take pleasure in again introducing our Improved W Seamless Skirt, as being the most acceptable and re-liable article in market; we are aware that many new styles called improvements are before the public, such as India Rubber, Gutta Percha, Rattan, &c., all of which we have if called for-but cannot recommend them, as we have ex-perimented with and tested them all-(most of them two years since,) submitting them to the judgment of competent ladies to decide upon their merits, and have found then, from actual use, to be in all important respects, dethen, from actual use, to be in all important respects, se-cidedly inferior to our \*properly prepared Whalebone, which has been in use the past two years, and for which has been expressed from all parts of the country entire satisfaction; and we have the more positive evidence from ar own large retail trade, amounting to many dozens per day. Therefore we confidently recommend our Skirts to be the least objectionable of anything in use; possessing many advantages found in no other Skirt, the most important of which is series of elastic Cords at the bottom, made from the only material that can be used, that will recover its place when pressed out of shape, will not roll nor curl, is not affected by heat or cold and can be washed without injury. These Cords at the bottom, instead of bones, which are exceedingly awkward and inconvenient, with our own prepared bones above and a fabric manufactured by ourselves expressly for our goods, in our estima-tion and the estimation of thousands who have used them, produce a Skirt, and the only Skirt equally adapted to the parior, the street, and the crowd, giving a proper, grace-ful and elegant form to a Lady's dress; light, pliable, easily adjusted and in every respect a complete article. The pub-lic are cautioned against all imitations or other goods called Seamless Skirts. Every genuine article is stamped, E. & J. Holmes' improved Seamless Whalebone Skirt, and are for sale at 99 Market street, Philadelphia, and in the prinpal Jobbing Houses in New York and Boston.

# EPPERSON SPRINGS

A RE LOCATED IN MACON COUNTY, TENNESSEE, A on the waters of Trammel Creek, four miles East of the turnpike leading from Gallatin, Tenn., to Scottsville, Ky., and will be prepared for the reception of visitors and invalids by the 15th day of May. This place has already acquired a reputation widely circulated for the highly medicinal character of its waters, (four different varieties.) and is now being visited by very many. Iving remotely, who go in search of a healthy at d delightful summer retreat, not only the invalid, but the seekers after pleasure, healthy pastime and sport, there being within a short ride from the Springs a place where deer is frequently seen and streams orings a place where deer is frequently seen and streams counding in trout and other kinds of fish, besides various wild animals and fiwis, such as foxes, squirrels, rabbits, wild-cate, wild turkies, pheavants, etc.

Dr. DeBow, one of the former preprietors, having purchased the entire interest in the Springs, has as cointed with him his son William, well known to all who visited the Springs last summer. Having gone to con iderable expense in re-fitting and enlarging their means of accommodation they flatter themselves that they will be able to add waterially to the comfort of all who may layor them with a visit, having, during the past winter, put away about seventy thousand pounds of very fine ice. They have had built twelve additional bed-rooms, besides a large one 60 by 20 feet, latticed on each side to afford air, in which the lovers of pleasure and social enjoyment will find ample room for

patronage, and again asks a continuance of the same, with the assurance that neither of us will spare either time or prins to render all comfortable who may sejourn with us in future. Having secured the nervices of Mr. and Mrs. Patterson, the public may be assured of hearty cheer in the dining-room. Our stable, too, will be well attended to. The medicinal character of the several Springs have been so often published, it is thought useless to do so now from the fact that Professor Safford, our State Geologist, has been engaged in the examination of some of the waters and designs to complete the whole upon the premises dur-ing this summer, when the sum of his analysis will be given to the public in connection with this notice or embodied in a report made out by himself. It is considered only neceseary to say that chronic affections of any of the more important organs exhibit the efficacy of the waters, particularly those of females. In cases of diseased kidney and bladder, cataneous diseases, indigestion, dropsy, etc., they have, in many cases, acted like a charm, and in all have afforded relief. Ample testimony as to these facts could be afforded felice. be afforded if pecessary.

Dr. DeBow will take cleasure in giving such advice to invalids and others visiting here, as an experience of 28 or 80 years will enable him to give, and be always present He avails himself of this method to return to his numer-ous friends and visitors his hearty thanks for their diberal ing, &c., \$1.00 per dozen.
